PULEX™

A leading player
in window cleaning market.

#01

MADE IN ITALY BRAND

Set up in 1963, **PULEX** plays a leading role at the top of the international market for the production of glass cleaning equipment, products and accessories and owes its outstanding success to the high degree of specialization and the high quality of its products.

#02

WIDE PORTFOLIO

PULEX provides a complete range of window cleaning tools including window squeegees, washers, poles, scrapers and blades, floor and outdoor cleaning tools.

#03

GLOBAL DISTRIBUTION

One of the first and leading protagonist in global market of the professional Window Cleaning.
PULEX delivers to more than 80 countries worldwide, focused on complete solutions.

#04

RUBBER, KEY OF THE SUCCESS

The Pulex rubber TQR (Total Quality Rubber) guarantees a perfect combination of raw material, vulcanization quality and the perfection of blade's cleaning edges. Moreover, each single rubber is checked manually.

PULEX™

IPC Pulex is a world leader in manufacturing window cleaning equipment and accessories.

Years of research, experimentation and innovation has led our squeegees to be appreciated by professionals from all over the world, who are called upon to clean the windows of skyscrapers, shops, shopping centres and private houses.

It is a fact that the number of upright surfaces to be cleaned is increasing daily and much faster than horizontal surfaces, and these are definitely much harder to clean and more difficult to reach. Our professional equipment has been specifically designed and developed for these vertical surfaces for a niche market that appears to be marginal, yet is becoming more and more important in the modern building industry.

IPC Pulex manufactures a full range of squeegees, telescopic poles, scrapers, floor squeegees, buckets and other cleaning accessories.

Every single process is carried out with emphasis on product innovation, quality control, and the use of state-of-the-art computerized methods.

As member and sponsor of the IWCA (International Window Cleaning Association), member of **ISSA** (International Sanitary Supply Association), and **AFIDAMP** (Italian Association of Cleaning Equipment Manufacturers and Dealers) IPC Pulex, with its superior quality products, has set itself a leading target: providing a wide range of target users, from professional cleaners to housekeepers, with widely tested technological solutions.

ONE AHEAD

ADDRESSING NEW CLEANING CHALLENGES

Cleaning is consistently evolving, as we seek to meet higher hygiene standards ever more effectively.

IPC is closely connected to the latest and best practises of cleaning and is committed to deliver new solutions that boost cleaning efficiency, addressing those areas and tasks that are evolving fastest.

We have thus developed a complete range of new solutions, responding to the latest precautionary practises focused to protect communities all around the world.

EVERYDAY IS A SUNNY DAY

Technolite is **ergonomically shaped for a comfort grip**, and the rubber molding ensures a non-slip grip ideal for cold conditions.

- **Ergonomic Design:** this is the most ergonomic window cleaning tool in the market and its ergonomic grip, made of a unique blended material, makes it comfortable for any job. Technolite performs better and gives better results.
- **Non-Slip rubber handle:** ensures a firm and safe grip even in tricky situations. The special coating makes it adhere to the user's hand and improves the overall performance.

PULEX™ Technolite
is the 360° solution
for windows cleaning.

PULEX™

BLACK
IS
GREEN™

UP TO 100% RECYCLED PLASTIC

Our designers have developed an innovative and fully equipped product range ideal for professional cleaning.

The certification of recycled plastic content in our products is a consistent consequence of transparent documentation and high control of supply chain, processing and production of our products.

Through the IPC exclusive black is green technology, these new eco-friendly products have been created with high quality recycled plastic, promoting sustainable development and environmental protection.

HOW TO KNOW THE CONTENT OF RECYCLED PLASTIC

The percentage of recycled plastic can vary from product to product or according to its configuration. The recycled plastic content in Black is Green IPC products can vary from a minimum of 15% to a maximum of 100%. It is possible to request documentation on the recycled plastic content indicating the specific product of interest.

BENEFITS

- 01 Black is Green TM recycled plastic is a raw material made of the best and strictly selected plastic waste. Black is Green TM is the result of an innovative process which guarantees the features of the brand new and high quality plastic, in the total respect of the environment
- 02 Recycled plastic produces no waste, it is recyclable and in compliance with RoHS and REACH guidelines
- 03 The minimum content of recycled plastic in the products and the production process of the "Black is Green" plastic are certified by a third party, in compliance with international regulations
- 04 The use of recycled plastic content in cleaning products is recognized in public tenders as a rewarding green requirement

RUBBER BLADES

HARD RUBBER	P. 17
-------------	-------

SOFT RUBBER	P. 17
-------------	-------

THE RUBBER IS THE KEY

The rubber blade is the main component of every squeegee since it is the element that comes into direct contact with glass and dirt. In the vast majority of squeegees available on the market the blade gets deformed when it comes into contact with dirt, which is abrasive, and is exposed to atmospheric agents or is subjected to friction on window frames and under the eaves. This is precisely why **TQR** (Total Quality Rubber) came about, which makes **Pulex rubber** the only one on the market used in a total quality squeegee. All our rubber blades guarantee a perfect combination of three requirements – the type and nature of the rubber, the quality of the mix and the cutting edge of the blade.

Our blades are made of genuine vulcanized natural rubber (NR), which is subjected to compression moulding, item by item, and must have consistent and homogeneous chemical and organic features.

We process the raw material to obtain a mix with no impurities that guarantees the vital requisites of perfect molecular dispersion, crosslinking, elasticity, snap, resilience, hardness, resistance to chemical and atmospheric agents, colouring and surface smoothness.

This brings us to the third aspect, namely the perfection and linearity of the blade's cleaning edge, which depends on the cut made by precision machines and scrupulous quality control.

RUBBER BLADES

SINGLE RUBBER HOT PRINT

The rubber mix is printed (and not extruded) in a hot process, piece by piece, using a powerful press that produces strips of about one meter length.

The molecular compression removes all the unsolicited substances that may weaken the final product, cause adhesion between the rubber and the uneven glass or ruin the rubber faster.

SINGLE CUT

In the final stage of the production the rubber strips are cut in half in a press to give the blade a very sharp wire. After further quality tests the blades are cut to the required sizes for the window squeegees.

THE PULEX RUBBER

The Pulex rubber blades are internally produced with our TQR process.

THE TQR (TOTAL QUALITY RUBBER) PULEX TECHNOLOGY

- ▶ Check of the raw material, real Malaysian vulcanized natural rubber
- ▶ Quality control of the mix (perfect molecular dispersion, elasticity and hardness; color and surface uniformity)
- ▶ Control of each rubber blade, one by one with a manual final test
- ▶ Perfection of the two edges of the rubber
- ▶ The parts around the edges must be free of flaws
- ▶ Laborious and lengthy tests ensure the quality of the TQR process
- ▶ Entirely produced in Italy
- ▶ Available hard (53° Shore A) or soft (48° Shore A)
- ▶ Better performance, faster and perfect cleaning.
- ▶ Minimal deformation to the contact with the glass and dirt.
- ▶ Resistance to chemicals and atmospheric agents
- ▶ All rubbers are treated with talc so as to be inserted in the supports faster.

ECONOMIC RUBBER (PRODUCED BY OTHER MANUFACTURERS)

- ▶ Production process without control.
- ▶ No inspection or finishing.
- ▶ It wears out very quickly.
- ▶ It leaves marks on the glass.
- ▶ It gets rapidly deformed.
- ▶ Low cost = low performances.

PULEX ADOPTS ONLY THE BEST RUBBER.

It is divided into two categories:

HARD RUBBER - SUITABLE FOR HOT CLIMATES

- ▶ 53° Shore A
- ▶ It can withstand higher pressures, so it is particularly suitable for those who work "with a heavy hand" (not professional window cleaners).
- ▶ It is mounted on all the Pulex squeegees except on the brass ones, the Alumax and Technoduo.

SOFT RUBBER - SUITABLE FOR COLD CLIMATES

- ▶ 48° Shore A
- ▶ Better adaptation to irregular surfaces
- ▶ Easy cleaning with minimum pressure on the glass
- ▶ Recommended for professional window cleaners.
- ▶ Recommended for very long squeegees, good results in the final part of the squeegee.

RUBBER BLADES - **HARD RUBBER**

UNIHANDLE

NEW

**PATENT
PENDING**

- ▶ Multifunctional
- ▶ Versatile
- ▶ High Compatibility

The innovative **UNIHANDLE** (patent pending) is an ergonomic handle and a flexible tool that adapts to each need to always respond in a simple, fast, effective and functional way to all window cleaning needs in each situation.

Its unique design, the quality of its materials and its innovative features rises from the desire to minimize the difficulties, effort and daily issues of professional window cleaners.

MULTIFUNCTIONAL

1. COMPLETE VERSION

Equipped with **IPC microfiber pad**, this model allows even the most grimy windows to be washed and remove stubborn dirt. This version includes: handle+replacement sleeve+channel+clips.

2. SQUEEGEE VERSION

Matched with high quality natural Pulex rubber, it wipes perfectly without leaving marks or halos. Can be equipped with different channels for different sizes.

3. SCRAPER VERSION

This version, combined with scraper, easily removes even the most stubborn or encrusted dirt.

A ONE-PASS TOOL TO WASH AND WIPE AT THE SAME TIME, OPTIMIZING THE NORMALLY REQUIRED TIMES.

VERSATILE

1. EXCLUSIVE PIVOTING SYSTEM

Fluid movement of rotation, free (up to $\pm 180^\circ$) or limited (up to $\pm 150^\circ$), which guarantees speed and efficiency.

2. ROTATION LOCKING

It is possible to stop the rotation movement in 5 different angular positions (0° , $\pm 45^\circ$, $\pm 90^\circ$).

3. EXTRA-WIDE ADAPTABLE ANGLE

It allows the tool to be adjusted according to cleaning needs or your preferences (-35° , -20° , -5° , 10° , 25° , 40° , 55°).

HIGH COMPATIBILITY

UNIVERSAL

The (patent pending) head is compatible with most channels and telescopic poles on the market.

EASY ON/OFF

of the telescopic poles with safety hole.

IDEAL FOR USE IN HEIGHT

... but not only.

MADE IN ITALY WITH HIGH QUALITY MATERIALS

Each component has been carefully selected to ensure the best performance.

TECHNOLITE WINDOW SQUEEGEE

- ▶ Ergonomic and non-slip handle in Chemiton and Santoprene
- ▶ 30°/35° handle
- ▶ Pole block with three teeth
- ▶ Stainless steel spring AISI 304
- ▶ Stainless steel AISI 430 upper part and channel
- ▶ Pulex rubber Soft & Hard
- ▶ Finely rounded corners
- ▶ 25-55 cm
- ▶ Hole on the back

With our Technolite - the ergonomic squeegee designed and tested by IPC Pulex - all stages of the job are optimized.

Technolite combines the classic qualities of easy handling and smooth movement typical of all **Pulex squeegees** with new features that improve performance in **every condition**.

The **ergonomic grip**, made of bicomponent plastic, is not just an aesthetic factor: it makes the squeegee lighter and hence **less tiring to use**, even for long periods. Technolite squeegee **performs better**, gives an overall superior result and is a truly user-friendly tool. It is available in sizes from 25 cm (10") to 55 cm (22").

TRIPLE LOCKING OF THE CHANNEL AND RUBBER

The three tabs that engage the notches in the newly-shaped channels are controlled by a snap spring and guarantee **secure locking**, perfect positioning of the steel edge and, even in long versions, extreme ease of use.

HOLE FOR THE SAFETY STRAP

A hole is provided in the end of the handle for attaching the safety strap - a feature of fundamental importance for anyone working at a height or under difficult conditions.

STAINLESS STEEL SQUEEGEE

- ▶ Rubber EPDM and stainless steel AISI 430 handle
- ▶ 30°/35° spring fixing closure handle; it can be used as a scraper too
- ▶ Pole block with two teeth
- ▶ Stainless steel spring AISI 304, screws and nuts in nickel-plated brass, stainless steel AISI 430 channel.
- ▶ Pulex rubber Soft & Hard.
- ▶ Finely rounded corners
- ▶ 15-55 cm
- ▶ Hole on the back

The **stainless steel squeegee**, which has revolutionized the way in which professionals work, can be disassembled into three main components, the supporting channel, the rubber blade and the handle with a securing spring.

It is flexible enough to be used as a scraper. The rubber blade support features a stainless steel channel in 9 different sizes ranging from 15 cm (6") to 55 cm (22"), and perfect linearity guaranteed by innovative ribbing, exclusive to IPC Pulex. The channel is locked onto the handle by means of two teeth at the top of the spring that fit into the corresponding holes.

These holes are at regular intervals so that the channel and rubber blade can be secured off-centre as required (see top left), and they increase the reach of the squeegee so that you can get to the top of the window without using a ladder. The standard and soft versions of the rubber blade are fitted into perfectly straight channels to improve functionality, even in the largest sizes. The handle comes with a soft rubber grip and can be fitted onto a telescopic pole.

STAINLESS STEEL WINDOW SQUEEGEE LONG HANDLE

- ▶ Long handle shape (LH) of the classic professional window squeegee (+2 cm)
- ▶ Better ergonomics
- ▶ Better grip
- ▶ Three blocking points for a stronger grip of the rubber
- ▶ Improved working safety: the rubber can be changed without removing the handle from the pole; the handle angle can be adjusted to reach also the critical points
- ▶ Pole easy to be changed
- ▶ 25-55 cm
- ▶ Hole on the back

IPC Pulex also produces the Long-Handle (LH) stainless steel version of the classic professional squeegee. The handle is 2 cm (0.7") longer and it comes with stainless steel channels in four different sizes: 25 cm (10"), 35 cm (14"), 45 cm (18") and 55 cm (22"). There are **three anchor points to hold the rubber firmly in the channel.**

ALUMAX

- ▶ ABS plastic handle, brass screws and nuts, brass spring 067 half-raw R350.
- ▶ 30°/35° handle
- ▶ Pole block with screws and nuts
- ▶ Extruded aluminum channel.
- ▶ Pulex rubber Soft & Hard.
- ▶ Finely rounded corners
- ▶ 35-90 cm
- ▶ Hole on the back

The AlumaX squeegee is an **extra-long squeegee**; it comes with a high-impact aircraft-grade extruded aluminium alloy channel (aluchannel) and a professional swivel handle.

Designed to save time on large windows, AlumaX can do the work quickly (in 1/3 of the time) and easily, cleaning the whole surface uniformly end to end. With its 80 cm channel, this squeegee ensures effortless and error-free operation. The result is a perfectly streak-free surface. The AlumaX handle can match any telescopic pole and is made of high-performance reinforced plastic. It swivels on a brass centre pin with screw adjustment.

The ends of aluchannel are rounded and non-scratch for use close up to the window frame. AlumaX comes with a channel and rubber blade in the size range 35 cm (14") to 90 cm (36").

BRASS WINDOW SQUEEGEE

- ▶ Brass 067 half-raw R350, brass ring 067 baked R280.
- ▶ 30°/35° handle
- ▶ Pole block with screws
- ▶ Clip for adjusting the rubber tension of the brass channel 063 raw R410.
- ▶ Pulex rubber Soft & Hard.
- ▶ Finely rounded corners
- ▶ 15-55 cm
- ▶ Hot polished and varnished (it does not oxide)
- ▶ Exclusive grain on the poles for a perfect linearity

The brass squeegee is the classic tool used by American and British window cleaners. The rubber blade is secured in the channel by two clips at either end, enabling you to adjust the tension of the rubber blade and keep it stiff at the ends. The channel is made of extra-stiff brass and the solid brass handle is anatomically shaped and warm to the touch. The channel is secured to the handle by means of two screws. The brass squeegee can match telescopic poles and comes in nine different sizes, ranging from 15 cm (6") to 55 cm (22").

PLASTIC WINDOW SQUEEGEE

- ▶ ABS plastic handle.
- ▶ 30°/35° handle
- ▶ Pole block with nut
- ▶ Extruded aluminum channel.
- ▶ Pulex rubber Soft & Hard.
- ▶ Closing knob and rear spring fasten to the body in order to avoid accidental loss
- ▶ 20-45 cm
- ▶ User-friendly, cheap, light, strong, easy to be assembled
- ▶ Hole on the back

IPC Pulex's **top quality plastic squeegee**, which is easy to use and relatively **inexpensive**, is now used all over the world by **window cleaners adopting a professional approach**. Fully interchangeable, it comes with extruded aluminum channels in 6 sizes, ranging from 20 cm (8") to 45 cm (18") and is locked by means of a wing nut. It is quick and easy to use and can be mounted on any telescopic pole for high level jobs. **Although all the parts can be disassembled and replaced, they cannot get mislaid because the wing nut and the locking plate both remain attached to the handle.**

SWIVEL WINDOW SQUEEGEE

ABS PLASTIC HANDLE, SCREWS AND NUTS IN BRASS, BRASS SPRING 067 HALF-RAW R350.

- ▶ 30°/35° handle
- ▶ Pole block with screws and nuts
- ▶ Brass pole 067 half-raw R350, brass channel clip 063 raw R410.
- ▶ Pulex rubber Soft & Hard.
- ▶ Finely rounded corners
- ▶ 25-55 cm
- ▶ Hole on the back

The swivel squeegee has been specially designed to clean difficult windows, i.e. with tight corners or unusual rounded or convex shapes.

It is necessary when the window cleaner is forced to stand still in a particular position without being able to move backwards or forwards but needs to work at an angle. It is enough to apply a slight pressure to the channel – the same as in the brass version – against the window frame to position the squeegee at the correct working angle, within a 180° range.

ALUMINIUM WINDOW SQUEEGEE

ALUMINUM ALLOY HANDLE 5754 H111, BRASS HANDLE RING 067 BAKED R280.

- ▶ Aircraft-grade anticorrosion aluminium
- ▶ 30°/35° handle
- ▶ Pole block with screws
- ▶ Extruded aluminum channel.
- ▶ Pulex rubber Soft & Hard.
- ▶ Finely rounded corners
- ▶ 15-45 cm

The all-aluminum squeegee has been improved and enhanced for window cleaners seeking a **light-weight tool** that facilitates the continuous swirling **S-movements** the job requires. This squeegee is comprised of a brand-new handle made entirely of high-impact, aircraft-grade anticorrosion aluminum and the same channel with rubber blade used on the plastic version. This special tool designed for special needs is the result of IPC Pulex's efforts to make the window cleaner's job easier.

WINDOW WASHERS

WINDOW WASHERS REPLACEMENTS P. 46

WINDOW WASHERS T-BARS P. 50

Pulex replacement sleeve stands out due to its high quality and the exceptional resistance of the acrylic microfibres. Tests have shown that in both the standard and abrasive versions the fibres maintain their features even after months of heavy-duty work. The fibre does not shed hairs. It has long thick microscopic filaments and is made of a special yarn. The sleeve is available with two different nap lengths of identical quality. The nap is specially shaped and hemmed to form a woven fibre sleeve with high water retention plus a non-slip rubber back. It comes in four different sizes ranging from 25 cm (10") to 55 cm (22"); other sizes can also be made on request. **The ends are reinforced** to protect them against wear and **the sleeve is secured to the T-bar by means of a length of elastic inside and a press stud**. The main version of the **support is made entirely of plastic in honeycomb form for water retention**. There are also aluminum-and-plastic and steel-and-plastic versions. Lastly comes a special swivel version that can be coupled with the swivel squeegee for use with the telescopic pole when cleaning tricky windows.

WINDOW WASHER

**WINDOW WASHERS
REPLACEMENTS**

WINDOW WASHER

Microtiger is IPC Pulex's microfiber sleeve for cleaning windows, an addition to the range of superior quality professional cleaning tools. This **top-performance microfiber fabric** is designed to remove dirt easily using a tiny amount of detergent, or even none at all. This is because the microfibers are a hundred times finer than a human hair and can penetrate right into the microscopic cracks in an apparently flat, compact pane of glass, removing all dirt quickly and easily.

The **main innovation is the composition of the yarn**: the colored is the (soft) abrasive part and the white is the absorbent and degreasing part. This dual action is enhanced by a scrub pad on one side of the Microtiger to help removing hard, rough dirt. The Microtiger is available in 4 sizes ranging from 25 cm (10") to 55 cm (22").

WINDOW WASHER - MICROTIGER REPLACEMENT SLEEVE

FABRIC MADE WITH A MIXTURE OF MICROFIBER/NYLON TO INCREASE THE CLEANING AND THE ABSORBING POWER; SPECIFIC FOR THE CLEANING OF THE OUTDOOR GLASSES

- ▶ Polyester microfiber (65%) and polyamide (35%)
- ▶ Strips in polyester, hook and loop fasteners in nylon.
- ▶ Lateral abrasive pad in nylon and polyester
- ▶ Washable till 40°
- ▶ 25-55 cm

WINDOW WASHER

The FT22 fabric has a different honeycomb structure compared to the standard fabric:

- It makes the fibers more compact.
- It allows water to go through, increasing the absorbing power.
- It guarantees an high absorbing power and breathability of the fibers.
- It enables a better adherence on the glass and a longer life.
- Washable till 40°

The Pulex sleeve, made up of Dralon®, a woven fabric of synthetic staple fibers, is made and patented from BAYER and it is made by a 100% acrylic sleeve (the basis is in polyester and the hair is in acrylic).

- It is characterized by its high quality and high resistance of the fibers.
- The fibers keep its own features unchanged even after many months of intense use.
- It is available in two different lengths:
- FT 22 = 22 mm
- FT 12 = 12 mm
- The product has been treated and hemmed to develop a high water retention sleeve .

SQUEEGE & WASHER TOOLS

A practical "TWO IN ONE" time-saving tool that cuts professional cleaning costs by saving time. It combines the cleaning force of the MicroTiger washer and the quality of the Pulex squeegee in one tool.

Made in highly impact resistant ABS, this professional tool resists to accidental falls and is ideal for use with poles thanks to SafeCone.

TELESCOPIC POLES

IPC Pulex telescopic poles offer a full range of possibilities for high-rise cleaning. They are comprised of one, two or three parts and come in 14 standard sizes ranging from 1.25 m (4'2") to 11 m (36'7"). The extruded aluminum tubular sections are coupled by means of nylon collars.

The end of each pole is comprised of a standard or screw cone to which you can connect any tools squeegee, washer, cobweb brush or scraper.

There are two joints near the cones with a plastic or aluminum angle adapter to get into tricky corners.

POLE 1 SECTION	P. 63
TELESCOPIC POLE 2 SECTIONS	P. 63
TELESCOPIC POLE 3 SECTIONS	P. 63
TELESCOPIC POLE 4 SECTIONS	P. 63
ACCESSORIES	P. 64

Pipe in extruded anodized aluminum, spring in steel aisi 304, road in avp nickel plated, handle in polypropylene copolymer plastic, ring nut and cone in plastic pa6

WEIGHTS OF THE TELESCOPIC POLES:

- ▶ Pole 1,25 m (248 g)
- ▶ Pole 1,5 m (290 g)
- ▶ Telescopic pole 2x0,6 m (351 g)
- ▶ Telescopic pole 2x1,10 m (550 g)
- ▶ Telescopic pole 2x1,25 m (580 g)
- ▶ Telescopic pole 2x1,5 m (685,8 g)
- ▶ Telescopic pole 2x2 m (839 g)
- ▶ Telescopic pole 2x3 m (1309 g)
- ▶ Telescopic pole 3x0,7 m (726,2 g)
- ▶ Telescopic pole 3x1 m (975 g)
- ▶ Telescopic pole 3x1,5 m (1403,4 g)
- ▶ Telescopic pole 3x2 m (1762,7 g)
- ▶ Telescopic pole 3x3 m (2589,6 g)
- ▶ Telescopic pole 4+4+3 mm (3200 g)

10 pcs

MADE IN PVC

- ▶ PVC performs better than other materials (for ex. compared to polypropylene used for the domestic cleaning) as it is more resistant and long-lasting.
- ▶ The bristles are subjected to a specific treatment to improve the performance, minimizing the loss of the captured dust.

CURVED PIPE BRUSH

Curved pipe brush
Scovolo ricurvo per tubi
Loup dépolssiéreur courbe

Escobillón encurvado para tubos

CODE
SCOV70009

WEIGHT
124 g

PACK
10 pcs

- ▶ Suitable to reach even the most difficult corners.
- ▶ Bristles in PVC.
- ▶ The bristles aren't subjected to any softening treatment since this tool aim is to scratch the surfaces therefore it has to be as firm and resistant as possible.
- ▶ The metal thread is covered with zinc.

SCRAPERS & BLADES

IPC Pulex scrapers and blades are all equipped with a blade cover and are used on windows, floors and various other surfaces. Three models have a 10 cm (4") blade, and the new Maxi-Scrap has a 15 cm (6") blade. The handle comes in four different lengths. The models are as follows: 1) with a plastic handle and 10 cm (4") blade; 2) with a 25 cm (10") aluminium handle and a 10 cm (4") blade; 3) with a 120 cm (48") aluminum handle and a 10 cm (4") blade; 4) with a 140 cm (56") aluminum handle and a 15 cm (6") blade. Model 4 has a 0.9 mm (23/64") thick carbon steel blade that is razor sharp on one side and blunt on the other.

SCRAPERS

Suitable to remove signs of:

- ▶ Paint
- ▶ Guano
- ▶ Silicone and other kind of dirt that cannot be removed with the washer replacement.
- ▶ Die-cast aluminum.
- ▶ Scraper with aluminum handle from 25, 120 and 140 cm (10, 48 and 56 inches).
- ▶ It can be assembled with the same blades used for the plastic version.
- ▶ Available even with ergonomic handle (same measure of the plastic model).
- ▶ The position of the blade is intentionally inclined in order to have a better result (effort reduction).

CLEANO SERIES

Product for the indoor windows cleaning and non-porous surfaces up to 6 meters height.

It combines the cleaning power of pure water with microfiber in a lightweight, compact and completely mechanical tool (no cable, battery or electrical equipment). The combined use of pure water and microfiber easily removes dirt without leaving residues or halos on the surface.

Pure water (demineralised or distilled) acts as a solvent as its bipolar nature reacts with the positive and negative charges of the dirt on the surface attracting and dissolving them. The microfiber cloth traps the dirt particles without leaving any residue.

Once dry, the pure water will leave no halos.

Detachable head.

#01

ECO-FRIENDLY

No detergents are employed

#02

NO DETERGENT COSTS

#03

LONG-LASTING CLEANLINESS OF THE GLASS

This system leaves no chemical residue in the micro porosity of the glass

#04

DIRT DOES NOT STICK TO THE SURFACE

therefore the number of cleaning operations is reduced

#05

EASY CLEANING

even in areas difficult to reach, without moving furnitures or obstacles = less effort and less stress for the operator

CLEANO PADS - GLASS MOP (HOOK AND LOOP FASTENERS)

CODE	DIGIT	WEIGHT g	SIZE cm	PACK
PANN70010	7	23	24 x 11	50 pcs
PANN70024	7	28	30 x 11	50 pcs
PANN70025	7	36	40 x 11	50 pcs

DESCRIPTION

Ideal for:

- GLASS
- MIRRORS
- STAINLESS STEEL

Ultra-microfiber pad for window cleaning.

Combined with an alcohol-based chemical product, it cleans brightly with only one wipe, eliminates dust, fingerprints, grease and other light dirt. Thanks to the wide surface and compared to the traditional pads, Glass Mop covers a bigger area in shorter time with excellent results.

DESCRIZIONE

Ideale per la pulizia di:

- VETRO
- SPECCHI
- ACCIAIO INOX

Usato in combinazione con prodotti a base di alcool, pulisce brillantemente con una sola passata, elimina la polvere, le impronte, grasso e altri tipi di sporco. Grazie all'ampia superficie e confrontato con altri pad tradizionali, il Glass Mop ricopre una più ampia area di lavoro in minor tempo e con risultati eccellenti.

DESCRIPTION

Idéale pour:

- VITRES
- MIROIRS
- INOX

Frage Microfibre pour le nettoyage des vitres. Utilisée en combinaison avec des produits à base d'alcool, elle nettoie parfaitement en un seul passage, elle élimine la poussière, les empreintes digitales, la graisse et les autres types de saleté. Grâce à sa grande surface et par rapport à d'autres franges traditionnelles, la Glass Mop couvre un espace de travail plus important en moins de temps et avec d'excellents résultats.

BESCHREIBUNG

Ideal für:

- GLAS
- SPIEGEL
- EDELSTAHL

Pad aus Mikrofaser für die Fensterreinigung. In Kombination mit einem chemischen Produkt auf Alkohobasis, reinigt es in nur einem Arbeitsgang optimal und beseitigt Staub, Fingerabdrücke, Fett und anderen Schmutz. Dank seiner großen Oberfläche und gegenüber herkömmlichen Pads kann der Glas Mop in kürzerer Zeit eine größere Fläche bearbeiten und dabei einzigartige Reinigungsleistungen gewährleisten.

DESCRIPCIÓN

Ideal para

- CRISTAL
- ESPEJO
- ACERO INOXIDABLE

El pad de ultra-microfibra para la limpieza de cristales. Cuando se le añade un producto químico a base de alcohol, se obtiene una limpieza brillante a la primera pasada, eliminando polvo, huellas dactilares, grasa y otra suciedad ligera. Gracias a su amplia superficie y, en comparación con los pads tradicionales, Glass Mop cubre un área más grande en menor tiempo y con excelentes resultados.

DESCRIPTION

Ideal for wet/dump (washing) and dry (dusting) cleaning of:

- WHITE BOARDS
- MARBLE
- CANTEEN'S TABLE

The excellent fluidity ensures effective cleaning results in removing dirt on all types of surface.

DESCRIZIONE

Ideale per la pulizia sia a umido/bagnato (lavaggio) che asciutta (spolveratura) di:

- TAVOLI BIANCHI
- MARMO
- TAVOLI DELLA MENSA

L'ottimo grado di scorrevolezza garantisce un risultato di pulizia efficace nella rimozione dello sporco su tutti i tipi di superficie.

DESCRIPTION

Idéale pour le nettoyage humide (lavage) et à sec (dépoussiérage) de:

- TABLEAUX BLANCS
- MARBRE
- TABLES DE REfectoire

L'excellente fluidité garantit un nettoyage efficace assurant l'élimination de la saleté sur tous les types de surface.

BESCHREIBUNG

Ideal für die Reinigung (feucht/nass) und für das Staubwischen (trocken):

- WHITEBOARDS
- MARMOR
- KANTINENTISCHE

Die hohe Gleitfähigkeit gewährleistet ein optimales Reinigungsergebnis bei der Entfernung von Schmutz von allen Oberflächen.

DESCRIPCIÓN

Ideal para la limpieza en mojado y en seco:

- MESAS BLANCAS
- MARMOL
- MESAS DE COMEDORES

Su excelente fluidez garantiza resultados de limpieza eficaces en la eliminación de suciedad en todo tipo de superficie.

- BARRA DE BAR
- COCINAS INDUSTRIALES
- AZULEJOS BLANCOS

The combination of white short pile microfiber (suitable for any type of surface) and the black abrasive spots (to rub the stubborn stains) ensures an excellent result in removing even the most difficult soil.

L'alternarsi della microfibra bianca a pelo rasato e degli inserti neri abrasivi, per sfregare le parti incrostate, crea una combinazione in grado di garantire un'accurata rimozione dello sporco anche da superfici con fughe profonde.

L'alternance de la microfibre blanche à poil ras et des inserts abrasifs noirs (pour frotter les parties incrustées) crée une combinaison garantissant une élimination soignée de la saleté et aussi sur les sols avec des joints profonds.

Der Wechsel von weißen, kurzen Mikrofasern, die für alle Oberflächen geeignet sind, und schwarzen, scheuernden Einsätzen zum Reinigen von verkrusteten Bereichen, schafft eine Kombination, dank der eine sorgfältige Entfernung des Schmutzes gewährleistet ist.

La combinación de la microfibra blanca de pelo corto (adecuada para cualquier tipo de superficie) y de los topes negros abrasivos (para frotar las manchas difíciles) garantiza un excelente resultado en todas las limpiezas, incluso de las superficies más difíciles.

DESCRIPCIÓN

Ideal para:

- SUPERFICIES DE PVC
- PLEXIGLASS
- SUPERFICIES LAMINADAS

Zebry has a very special "V" structure that purposely interrupts the uniformity of the contact between the microfibres and the surface itself. The spaces that are created allow the strand to penetrate deeper into the pores of the surfaces or into the grouts of tiles and to carry out a more careful and complete cleaning.

La speciale struttura a "V" che interrompe l'uniformità del contatto fra la microfibra e la superficie stessa, consente al filamento di penetrare in profondità nei pori della superficie o nelle fughe delle piastrelle effettuando una pulizia più accurata e completa.

La structure spéciale en "V" interrompt l'uniformité du contact entre la microfibre et la surface elle-même. Elle permet au fil de pénétrer profondément dans les pores de la surface ou les joints de carrelage en effectuant un nettoyage plus précis et complet.

Zebry verfügt über eine „V“-förmige Struktur, durch die der gleichförmige Kontakt zwischen Mikrofasern und Oberfläche unterbrochen wird. Der dadurch geschaffene Raum ermöglicht es der Faser tief in die Poren der Oberfläche oder in die Fugen der Fliesen einzudringen, wodurch eine noch präzisere und umfassendere Reinigung gewährleistet wird.

Zebry tiene una estructura a "V" muy especial, que interrumpe deliberadamente la uniformidad del contacto entre las microfibras y la superficie. Los espacios que se crean permiten que el hilo penetre más profundamente en los poros de las superficies o en las juntas de los azulejos y que se realice una limpieza más cuidadosa y completa.

Ideal para:

- MUEBLES
- MESAS
- ESTANTERÍAS

Pad desechable de poliéster con un tratamiento adhesivo especial.

Práctico, fácil de usar a mano o con Cleano 10, proporciona un poder adhesivo del 99% para limpiar todo tipo de suelo sin dejar ningún residuo.

QUICK PURE BOTTLE

WHAT IS QUICK PURE BOTTLE?

is an easy way to get pure water quickly.

QUICK PURE BOTTLE, THE INDOOR ULTRA PURE WATER CLEANING SYSTEM.

#01

EASY

You just need to insert the resin bag and shake

#02

LONG LASTING

Resin bag filters up to 600 l of water (1200 bottles)

#03

PRATICAL

Portable surfaces and glass cleaning solution

#04

EFFECTIVE

It reduces the fixed water residue up to 600 TDS ppm

#05

CHEMICAL FREE

Suitable for cleaning any surface

HOW TO USE:

01. Remove the Resin Bag from the plastic bag.
02. Place the Resin Bag into the Quick Pure Bottle.
03. Fill-in with tap water up to about 2,5 cm from the upper edge.
04. Shake it up to purify water or let to stand overnight.

TECHNICAL DATA - CAPACITY: 650 ml

TDS PPM FIXED WATER RESIDUE	DENSITY (KG/M ³)	QUALITY	SHAKING TIME*	# OF BOTTLES
10-70	0,260	VERY SOFT	< 1 min	1200-170
70-150	0,130	SOFT	1-2 min	170-81
150-250	0,087	SLIGHTLY HARD	2-3 min	81-49
250-320	0,065	MODERATELY HARD	3-4 min	49-38
320-420	0,051	HARD	4-5 min	38-29
420-600	0,043	VERY HARD	5-7 min	29-20

* Reduce shake time in half by adding 2 bags per bottle.

DESCRIPTION

The ultimate device for testing the purity of liquids. Portable and easy to use, it comes with its case provided with clip. Always ready to use! It is just necessary to remove the protective cap and to immerse the probes in the liquid to be measured. The automatic temperature compensation makes life even much easier: it allows accurate interpretations of the data. The removal of the tool from the water is possible thanks to the hold function, checking the data is of course easier. Ideal for many domestic or applications. With a range of 0-9990 ppm, the J.B.W. TDS is perfect for a wide range of tasks. It is a convenient way to test the water in swimming pools, aquariums, taps reverse osmosis filters or other sources, to know if water you drink or use is suitable for your use.

1. Measurement Range: 0-9990 ppm
2. Accuracy: $\pm 2\%$
3. Batteries: 2 x 1.5 V LR44 battery charger
4. Auto-off function: 10 minutes
5. Operating Temperature: 0-99°C / 32-212°F
6. ATC (Automatic Temperature Compensation): 0-50°C / 122°F

DESCRIZIONE

Il dispositivo ideale per testare la purezza dei liquidi. Portatile e facile da usare, viene fornito con una custodia per trasporto con una clip. Lo strumento è sempre pronto all'uso, è sufficiente rimuovere il cappuccio protettivo ed immergere le sonde nel liquido da misurare. La compensazione automatica della temperatura rende ancora più facile ottenere letture accurate, e la funzione Hold consente di estrarre lo strumento dall'acqua per una lettura più facile dei risultati di misurazione. Ideale per molte applicazioni domestiche o di laboratorio. Con una gamma di misurazione di 0-9990 ppm, il J.B.W. TDS è perfetto per una vasta serie di compiti. E' un modo comodo per testare l'acqua in piscine, acquari, rubinetti, filtri a osmosi inversa o altre sorgenti, per sapere finalmente se l'acqua che si beve o si utilizza è adatta all'uso che se ne fa.

1. Gamma di misurazione: 0-9990ppm
2. Precisione: $\pm 2\%$
3. Batterie: 2 x 1,5 V pila a bottone LR44
4. Spegnimento automatico: 10 minuti
5. Temperatura di funzionamento: 0-99°C / 32-212°F
6. ATC (compensazione automatica della temperatura): 0-50°C / 122°F

DESCRIPTION

Le dispositif idéal pour tester la pureté des liquides. Portable et facile à utiliser, livré avec une mallette de transport avec un clip. L'instrument est toujours prêt à l'emploi, il suffit d'enlever le capuchon de protection et d'immerger les sondes dans le liquide à mesurer. La compensation automatique de la température facilite encore l'obtention de relevés précis et la fonction Hold vous permet d'extraire l'instrument de l'eau pour une lecture plus facile des résultats de mesure. Idéal pour de nombreuses applications domestiques ou de laboratoire. Avec une gamme de 0-9990ppm, le J.B.W. TDS est parfait pour un large éventail de tâches. C'est un moyen pratique de tester l'eau dans les piscines, les aquariums, les robinets, les filtres à osmose inverse ou d'autres sources, pour savoir si l'eau que vous buvez ou utilisez est adaptée à votre utilisation.

1. Plage de mesure: 0-9990 ppm
2. Précision: $\pm 2\%$
3. Batteries: Chargeur de batterie 2 x 1.5 V LR44
4. Arrêt automatique: 10 minutes
5. Température de fonctionnement: 0-99°C / 32-212°F
6. ATC (compensation automatique de la température): 0-50°C / 122°F

BESCHREIBUNG

Das ultimative Gerät um den Reinheitsgrad von Flüssigkeiten zu prüfen. Transportabel und leicht anzuwenden, die Lieferung erfolgt im Kasten mit Clip. Immer sofort einsetzbar! Es genügt die Schutzkappe abzunehmen und den Fühler in die zu prüfende Flüssigkeit einzutauchen. Der automatische Temperatenausgleich macht es noch einfacher; es sorgt für die genaue Auslegung der Daten. Die Entnahme des Gerätes aus dem Wasser ist möglich durch die Hold-Funktion, so dass die Prüfung der Daten deutlich einfacher ist. Ideal für viele Anwendungen. Mit einem Bereich von 0-9990 ppm ist das J.B.W. TDS perfekt für eine Vielzahl von Aufgaben. Es ist ein zweckmäßiger Weg das Wasser in Swimmingpools, Aquarien, Umkehrosmose Filter in Hähnen oder anderen Quellen zu testen und festzustellen, ob das verwendete Wasser für die Anwendung geeignet ist.

1. Messbereich: 0-9990 ppm
2. Genauigkeit: $\pm 2\%$
3. Batterie: 2 x 1.5 V LR44
4. Automatische Abschaltfunktion: 10 Minuten
5. Einsatztemperatur: 0-99°C / 32-212°F ATC (Automatischer Temperatenausgleich): 0-50°C / 122°F

DESCRIPCIÓN

El dispositivo ideal para comprobar la pureza de los líquidos. Portátil y fácil de usar, viene en un estuche con clip. El dispositivo siempre está listo para su uso, quitando, simplemente, la tapa protectora y sumergiendo las sondas en el líquido. La compensación automática de la temperatura hace que sea aún más fácil obtener unas lecturas precisas y la función Hold permite extraer el dispositivo del agua, para una lectura más fácil de los resultados de medición. Ideal para una gran variedad de aplicaciones domésticas o de laboratorio. Con un rango de medición de 0-9990ppm, el J.B.W. TDS es perfecto para una amplia serie de tareas. Es una herramienta útil para comprobar el agua de piscinas, acuarios, grifos, filtros de ósmosis inversa u otras fuentes, para saber si el agua que se bebe o se usa es adecuada para su uso.

1. Rango de medición: 0-9990ppm
2. Precisión: $\pm 2\%$
3. Baterías: 2 x 1,5 V pilas botón LR44
4. Apagado automático: 10 minutos
5. Temperatura de funcionamiento: 0-99°C / 32-212°F
6. ATC (Compensación automática de temperatura): 0-50°C / 122°F

OUTDOOR CLEANING

Designed and tested to ensure a secure and solid grip.

- It is provided with suction cups for a better grip or rubber for use in confined spaces.
- The ergonomic design and light weight make Picker a very valuable tool for various applications:
 1. Collection of objects in areas difficult to reach.
 2. Picking of fruit from trees.
 3. Removing of waste from public areas.
 4. Handling of waste in chemical laboratories or other domestic or professional spaces.

FLOOR SQUEEGEES

Ideal for removing water or wet from all types of floors.

- Mineral fiber reinforced plastic for heavy usage.
- Soft rubber composed of closed cells.
- The soft rubber blade is mounted in a perfectly linear way in order to be able to bring the water and dirt outside of the deepest slots
- Housing for universal handle.

Quality in detail

- The Mustik is equipped with a special splash guard that avoids water splashes.
 - Floors with uneven surfaces tend to leave residues that prevent normal rubber blades to move easily, a problem which has now been overcome.
- The soft rubber Pulex blade is very elastic and durable:
 - Efficient in liquids treatment.
 - It absorbs less compared to the ones of the competitors.
 - It reduces friction and vibration during the usage, even on difficult surfaces, a feature which has greatly increased the duration of the blade.
- Color coding system HACCP
 - No cross contamination (Blue: medium risk - Red: high risk - Yellow: low risk - Green: food)

SALES TERMS AND CONDITIONS

IPC TOOLS S.p.A. GENERAL TERMS AND CONDITIONS OF SALE

1. **GENERAL AND VALIDITY** - These general terms and conditions of sale apply to all sales transactions. Any special conditions, including departures from these general terms and conditions, must be issued in writing at the time of order or agreed in a written statement. The prices specified in the quotation are valid for the term indicated. Orders will only be accepted if they correspond to the quotation. IPC TOOLS S.p.A. reserves the right to refuse orders. All the clauses herein shall be considered an integral part of the order and are deemed as accepted by the Client.
2. **PRODUCTS** - The features of the goods are as detailed in the catalogues and price-list in force at the time of delivery. The descriptions and drawings are provided merely for information purposes; IPC TOOLS S.p.A. reserves the right to make, even without prior notice, any technical modifications it considers necessary or useful.
3. **PRICES** - The prices shown in the price-list are quoted ex-factory, unless agreed otherwise in writing. The prices and the terms and conditions of sale quoted in the price-list are not binding and IPC TOOLS S.p.A. reserves the right to make adjustments at any time without prior notice. All consignments are deemed to be accepted at the prices indicated in the official price-list in force at the time of delivery. Prices, discounts and conditions for single consignments are not binding with respect to subsequent orders.
4. **TAXES AND DUTIES** - All value-added tax (VAT), which is never included in the listed prices, and any other taxes and duties, even if applied during execution of the contract, shall be paid by the Buyer. The Buyer shall also pay the following: a) stamp duty for bills or bank receipts issued; b) contract registration and transcription fees; c) all other charges connected with special requests made by the Buyer or resulting from failure to fulfil its contract obligations.
5. **PACKAGING** - IPC TOOLS S.p.A. will provide suitable packaging to its own standards, unless agreed otherwise in writing. IPC TOOLS S.p.A. cannot be held liable for damage, deterioration or loss of any kind due to defective or inadequate protection up until arrival at the destination. Weights, dimensions and other details are indicative and not binding. Returned packaging will not be accepted.
6. **ORDERS** - A) All purchase orders are accepted "subject to approval by the Seller". B) Quantities ordered must correspond to standard packs. C) Each purchase order must include the product code and description. Orders placed through agents or representatives of IPC TOOLS S.p.A. are subject to acceptance by IPC TOOLS S.p.A.. Such orders will therefore be considered binding only upon written acknowledgement from IPC TOOLS S.p.A..
7. **DESPATCH** - All goods travel at the Buyer's risk, regardless of the place of transfer of ownership.
8. **DELIVERY TERM** - The agreed delivery term is intended as the date of despatch of the goods from the factory. It is indicative and not binding on the Seller, especially in connection with delays caused by acts of God.
9. **NON-COLLECTION OF GOODS** - Failure to collect the goods within thirty days of the agreed date will entitle the Seller to cancel the contract ipso jure and to withhold, as a penalty, any advance payment made, subject to the right to claim for further damage.
10. **CLAIMS** - The Buyer shall check the goods immediately upon receipt thereof. The goods will be considered accepted in full 8 (eight) days after their arrival at destination. Claims regarding the quality of the goods, under penalty of nullity, shall be sent in writing by registered letter with return receipt, fax or e-mail to IPC TOOLS S.p.A. within 8 (eight) days of receipt of the goods. The term for presenting a written claim regarding functional defects that can only be verified by operating the product is 30 (thirty) days from the date of receipt of the goods (the date marked on the shipping document issued by the carrier). If the claim is accepted, IPC TOOLS S.p.A. shall have the sole obligation to replace the goods carriage paid, all other forms of indemnity being explicitly excluded. Claims for delay or damage to goods in transit shall be made to the carrier upon delivery of the goods, making a written reserve on the shipping document, a copy of which shall be sent immediately to IPC TOOLS S.p.A..
11. **RETURN OF GOODS** - Returned goods will not be accepted without prior written authorisation from IPC TOOLS S.p.A.. They must be delivered carriage paid at the Buyer's risk. IPC TOOLS S.p.A.'s shipping agents and carriers are not authorised to collect returned goods or accept claims.
12. **CONDITIONS OF PAYMENT** - In order to be valid, payments must be made directly to IPC TOOLS S.p.A.. Payments by draft, bill or cheque are always intended as "subject to collection". If payment is made after the agreed expiry date, IPC TOOLS S.p.A. will apply overdue interest at the rate of 5 (five) percent above the prime rate established by the Bank of Italy and in force at the time of application of said interest.
13. **DISPUTES** - Any disputes between the parties will come under the jurisdiction of the Court of Padua.

CONDIZIONI GENERALI DI VENDITA IPC TOOLS S.p.A.

1. **GENERALITÀ E VALIDITÀ** - Le condizioni generali qui di seguito riportate si intendono valide per qualsiasi vendita. Eventuali condizioni particolari anche in deroga a quelle generali dovranno essere scritte nel contesto dell'ordine o concordate con lettera scritta. Le nostre offerte si intendono valide solo per il termine indicato sull'offerta stessa. L'ordine verrà accettato solo se corrispondente a quanto offerto. IPC TOOLS S.p.A. si riserva comunque il diritto di rifiuto. Tutte le clausole qui riportate si intendono accettate dal cliente, dovendosi le medesime considerare parte essenziale dell'ordinazione.
2. **OGGETTO DELLA VENDITA** - I materiali hanno le caratteristiche descritte nei cataloghi e nei listini prezzi in vigore all'atto della consegna. Descrizioni e disegni tuttavia hanno carattere informativo, IPC TOOLS S.p.A. si riserva il diritto di apportare, anche senza preavviso, eventuali modifiche tecniche che, a suo insindacabile giudizio, si rendano necessari o utili.
3. **PREZZI** - I prezzi indicati nel listino si intendono per consegna franco fabbrica, salvo accordi in deroga debitamente riportati per iscritto. I prezzi e le condizioni di vendita riportate nel listino non sono impegnativi, e IPC TOOLS S.p.A. si riserva il diritto di modificarli, in qualsiasi momento, senza preavviso. Tutte le forniture si intendono accettate ai prezzi indicati nel listino ufficiale in vigore al momento della consegna. Prezzi, sconti e condizioni delle singole forniture non sono impegnativi per le ordinazioni successive.
4. **IMPOSTE E TASSE** - L'imposta sul valore aggiunto (IVA), che non è mai compresa nei prezzi di listino, e tutte le altre imposte e tasse, anche se intervenute durante l'esecuzione del contratto, si intendono a completo carico dell'Acquirente. Sono pure a carico dell'Acquirente: a) le imposte di bollo per l'emissione di cambiali o ricevute bancarie; b) le spese di registrazione e trascrizione del contratto; c) ogni altro onere connesso a richieste particolari dell'Acquirente o a sue inadempienze.
5. **IMBALLAGGIO** - IPC TOOLS S.p.A. predispone idoneo imballaggio secondo i propri standard ove non diversamente concordato per iscritto. Essa non è comunque responsabile di qualsiasi tipo di avaria, deterioramento o perdita dovuta a protezione difettosa, insufficiente, fino e compreso l'arrivo a destino. I dati, i pesi e le misure sono a titolo indicativo e non impegnativo. Non si accettano imballi di ritorno.
6. **ORDINI** - a) tutte le commissioni d'ordine sono da ritenersi "salvo approvazione venditore", b) i quantitativi dovranno essere quelli indicati per ogni imballo, c) ogni ordine deve riportare descrizione e codice del prodotto. Gli ordini raccolti tramite agenti, rappresentanti o incaricati di IPC TOOLS S.p.A. sono sempre subordinati all'insindacabile giudizio di IPC TOOLS S.p.A. stessa. Di conseguenza, i suddetti ordini potranno considerarsi impegnativi solamente a seguito di una conferma d'ordine scritta da IPC TOOLS S.p.A..
7. **SPEDIZIONE** - La merce viaggia sempre a rischio e pericolo dell'Acquirente qualunque siano le condizioni di resa pattuita.
8. **TERMINE DI CONSEGNA** - Il termine di consegna fissato alla conclusione del contratto è inteso come termine di spedizione della merce dalla fabbrica. La data di spedizione si intende approssimativa e non vincolante per il venditore, in particolare per ritardi dovuti a cause di forza maggiore.
9. **MANCATO RITIRO** - Il mancato ritiro della merce, decorsi trenta giorni dal termine pattuito per la consegna, produrrà la risoluzione ipso iure del contratto di vendita ed il venditore avrà diritto di trattenere, a titolo di penale, le somme fino a quel momento ricevute, salvo il maggior danno.
10. **RECLAMI E CONTESTAZIONI** - L'Acquirente ha l'obbligo di controllare la merce immediatamente dopo averla ricevuta. Trascorsi 8 (otto) giorni dall'arrivo al destinatario, la merce si intende pienamente accettata. Eventuali reclami riguardanti la qualità della merce, sotto pena di decadenza, devono essere inviati per iscritto, mediante lettera raccomandata con ricevuta di ritorno, fax o e-mail a IPC TOOLS S.p.A. entro 8 (otto) giorni dalla data di ricevimento della merce stessa. Nel caso si tratti di difetti del funzionamento, accertabili solamente mediate utilizzo del prodotto, i termini per inoltrare il reclamo scritto sono di 30 (trenta) giorni dalla data di ricevimento della merce (fa fede il documento di trasporto rilasciato dallo spedizioniere). Qualora il reclamo venga considerato valido, IPC TOOLS S.p.A. è tenuta solamente alla pura e semplice sostituzione della merce in porto franco, mentre è esclusa ogni altra forma di indennizzo. I reclami per eventuali ritardi o danni imputabili al trasporto, devono essere rivolti al vettore, all'atto della consegna della merce, elevando riserva scritta sullo stesso documento di trasporto che deve essere poi trasmesso urgentemente, in copia, a IPC TOOLS S.p.A..
11. **RISPEDIZIONE DELLA MERCE** - Non ci accettano resi se non preventivamente autorizzati per iscritto a IPC TOOLS S.p.A. e se non fatti recapitare, alla stessa, con resa in porto franco e a rischio del compratore. Gli spedizionieri ed i trasportatori di IPC TOOLS S.p.A. non sono autorizzati al ritiro della merce, né tantomeno, al riconoscimento del reclamo.
12. **CONDIZIONI DI PAGAMENTO** - I pagamenti, per essere validi, devono essere effettuati direttamente a IPC TOOLS S.p.A.. La validità dei pagamenti a mezzo tratta, cambiali o assegni si intende sempre "salvo buon fine". Nel caso di ritardato pagamento alle scadenze pattuite, IPC TOOLS S.p.A. applicherà gli interessi di mora nella misura di 5 (cinque) punti oltre il tasso ufficiale di sconto fissato dalla Banca d'Italia ed in vigore al momento di applicazione degli interessi medesimi.
13. **CONTROVERSIE** - Per qualsiasi controversia è competente il foro di Padova.

SALES TERMS AND CONDITIONS

CONDITIONS GÉNÉRALES DE VENTE - IPC TOOLS S.p.A.

- 1. GÉNÉRALITÉS ET VALIDITÉ** - Les conditions générales qui sont reproduites ci-dessous sont valables pour toutes les ventes. Les conditions particulières éventuelles, notamment par dérogation aux conditions générales, devront être indiquées par écrit lors de la commande ou convenues par une lettre écrite. Nos offres s'entendent valables uniquement pour la période de temps indiquée dans l'offre. La commande ne sera acceptée que si elle correspond à l'objet de l'offre. IPC TOOLS S.p.A. se réserve toutefois le droit de refus. Toutes les clauses indiquées ici s'entendent acceptées par le client et doivent être considérées comme une partie essentielle de la commande.
- 2. OBJET DE LA VENTE** - La marchandise possède les caractéristiques décrites dans les catalogues et dans les barèmes de prix en vigueur au moment de la commande. Les descriptions et les dessins ont cependant un caractère informatif, IPC TOOLS S.p.A. se réservant donc le droit d'apporter, même sans préavis, toutes modifications techniques qui s'avèreraient nécessaires ou utiles à son avis incontestable.
- 3. PRIX** - Les prix indiqués au barème de prix s'entendent pour livraison départ usine, sauf accords dérogatoires dûment consignés par écrit. Les prix et les conditions de vente indiqués dans le barème de prix sont dépourvus de force obligatoire, et IPC TOOLS S.p.A. se réserve le droit de les modifier à tout moment et sans préavis. Toutes les livraisons s'entendent acceptées aux prix indiqués au barème officiel en vigueur au moment de la livraison. Les prix, remises et conditions d'une fourniture donnée ne nous engagent aucunement pour les commandes postérieures.
- 4. IMPÔT SET TAXES** - La taxe sur la valeur ajoutée (TVA) qui n'est jamais comprise dans les prix de catalogue et tous les autres impôts et taxes, même intervenus pendant l'exécution du contrat, sont entièrement à la charge de l'Acheteur. Sont également à la charge de l'Acheteur : a) les impôts de timbre pour l'émission de lettres de change ou d'effets bancaires, b) les frais d'enregistrement et d'inscription du contrat, c) toute autre relative à des demandes particulières de l'Acheteur ou à des manquements de sa part.
- 5. EMBALLAGE** - IPC TOOLS S.p.A. prévoit un emballage approprié selon ses propres standards, sauf accord différent établi par écrit. IPC TOOLS S.p.A. décline toute responsabilité pour tout type de panne, détérioration ou perte dues à une protection défectueuse, insuffisante, jusqu'à l'arrivée à destination et même après. Les données, les poids et les mesures sont fournis à titre indicatif et non contraignant. Les emballages de retour ne sont pas acceptés.
- 6. COMMANDES** - a) Toutes les commandes doivent être considérées « sous réserve d'approbation du vendeur », b) les quantités devront être celles qui sont indiquées pour chaque colis, c) chaque commande doit indiquer la description et le code du produit. Les commandes obtenues à travers des agents, représentants ou mandataires de IPC TOOLS S.p.A. sont toujours subordonnées à l'approbation incontestable de IPC TOOLS S.p.A. Par conséquent, ces commandes n'engageront IPC TOOLS S.p.A. qu'après la confirmation écrite de ce dernier.
- 7. EXPÉDITION** - La marchandise voyage toujours aux risques et périls de l'Acheteur, quelles que soit les conditions de fournitures accordées.
- 8. DÉLAI DE LIVRAISON** - Le délai de livraison fixé à la conclusion du contrat est entendu comme délai d'expédition de la marchandise à partir de l'usine. La date d'expédition est approximative et non contraignante pour le vendeur, en particulier en ce qui concerne les retards dus à des causes de force majeure.
- 9. ABSENCE D'ENLÈVEMENT** - L'absence d'enlèvement de la marchandise dans un délai de trente jours à partir de la date de livraison prévue entraînera la résiliation de plein droit du contrat de vente et donnera le droit au vendeur de retenir, à titre d'astreinte, les sommes reçues jusqu'à ce moment, sauf l'indemnisation d'un dommage majeur.
- 10. RÉCLAMATIONS ET PLAINTES** - L'Acheteur est tenu de vérifier la marchandise immédiatement après la réception. Passés 8 (huit) jours après l'arrivée au site du destinataire, la marchandise s'entend pleinement acceptée. Les réclamations éventuelles concernant la qualité de la marchandise doivent être adressées à IPC TOOLS S.p.A. par écrit, sous peine de déchéance, par courrier recommandé avec accusé de réception, par fax ou par courriel, dans un délai de 8 (huit) jours à partir de la date de réception de la marchandise. S'il s'agit de défauts de fonctionnement qui ne puissent être établis que lors de l'utilisation du produit, le délai de présentation de la réclamation écrite est de 30 (trente) jours à partir de la date de réception de la marchandise (le document de transport établi par le transporteur faisant foi). Si la réclamation est considérée valable, IPC TOOLS S.p.A. est tenu exclusivement au remplacement pur et simple de la marchandise en franco de port, toute autre forme d'indemnisation étant exclue. Les réclamations pour tout retard ou dommage imputables au transport doivent être adressées au transporteur lors de la livraison de la marchandise en formulant une réserve écrite sur le propre document de transport dont une copie doit ensuite être transmise d'urgence à IPC TOOLS S.p.A.
- 11. RÉEXPÉDITION DE LA MARCHANDISE** - Aucun retour de marchandise ne sera accepté sans l'autorisation écrite préalable de IPC TOOLS S.p.A. et si les biens ne sont pas renvoyés à ce dernier en franco de port et aux risques de l'acheteur. Les expéditeurs et les transporteurs de IPC TOOLS S.p.A. ne sont pas autorisés à effectuer le retrait de la marchandise, et encore moins à reconnaître la réclamation.
- 12. CONDITIONS DE PAIEMENT** - Les paiements, pour être valables, doivent être effectués directement à IPC TOOLS S.p.A. La validité des paiements par effet, lettre de change ou chèque, s'entend toujours « sauf bonne fin ». En cas de retard de paiement par rapport aux échéances convenues, IPC TOOLS S.p.A. appliquera des intérêts de retard à hauteur de 5 (cinq) points au-dessus du taux officiel d'escompte fixé par la Banque d'Italie et en vigueur au moment de l'application desdits intérêts.
- 13. LITIGES** - Le Tribunal de Padua est compétent pour régler tout litige.

ALLGEMEINE VERKAUFSBEDINGUNGEN DER FA. IPC TOOLS S.p.A.

- 1. ALLGEMEINES UND GÜLTIGKEIT** - Die hier im Folgenden aufgeführten allgemeinen Bedingungen verstehen sich für jedes Verkaufsgeschäft gültig. Eventuelle Sonderbedingungen, auch in Abweichung der allgemeinen Bedingungen, müssen in der Bestellung angegeben oder in einem Schreiben schriftlich festgelegt sein. Unsere Angebote verstehen sich nur für den im Angebot angegebenen Zeitraum gültig. Es werden nur Bestellungen angenommen, die mit dem Angebot übereinstimmen. Die Fa. IPC TOOLS S.p.A. behält sich auf alle Fälle das Ablehnungsrecht vor. Alle hier aufgeführten Klauseln verstehen sich als vom Kunden angenommen, da sie als wesentlicher Bestandteil der Bestellung anzusehen sind.
- 2. VERKAUFGSGEGENSTAND** - Die Materialien weisen die Eigenschaften auf, die in den Katalogen und in den bei der Lieferung gültigen Preislisen angegeben sind. Dennoch sind die Beschreibungen und Zeichnungen rein informativ und die Fa. IPC TOOLS S.p.A. behält sich das Recht vor, auch ohne Vorankündigung eventuelle technische Änderungen vorzunehmen, die sich nach ihrem freien Ermessen als notwendig oder nützlich erweisen.
- 3. PREISE** - Sofern nicht anderes schriftlich vereinbart wurde, verstehen sich die in der Preisliste angegebenen Preise frei ab Werk. Die in der Preisliste angegebenen Preise und Verkaufsbedingungen sind unverbindlich und die Fa. IPC TOOLS S.p.A. behält sich das Recht vor, sie jederzeit ohne Vorankündigung zu ändern. Alle Lieferungen verstehen sich zu den Preisen angenommen, die in der bei Lieferung gültigen offiziellen Preisliste angegeben sind. Preise, Skonti und Bedingungen der einzelnen Lieferungen sind für spätere Bestellungen unverbindlich.
- 4. STEUERN UND ABGABEN** - Die Mehrwertsteuer (MwSt.), die nie in den Preisen der Preisliste inbegriffen ist, und alle anderen Steuern und Abgaben, auch wenn während der Vertragsausführung eingetreten, verstehen sich vollständig zu Lasten des Käufers. Ebenfalls zu Lasten des Käufers gehen: a) die Stempelgebühren für die Ausstellung von Wechseln oder Bankquittungen; b) die Gebühren für die Eintragung und Überschreibung des Vertrags; c) jede weitere Abgaben in Verbindung mit Sonderwünschen des Käufers oder mit Vertragswidrigkeiten seitens des Käufers.
- 5. VERPACKUNG** - Sofern nicht anderes schriftlich vereinbart wurde, stellt die Fa. IPC TOOLS S.p.A. eine ihrem Standard entsprechende geeignete Verpackung bereit. Bis einschließlich der Ankunft am Bestimmungsort haftet sie in keinem Fall für Mängel, Beschädigungen oder Verluste jeglicher Art, die auf einen mangelhaften oder unzureichenden Schutz zurückzuführen sind. Die Angaben, Gewichte und Maße sind richtungsweisend und unverbindlich. Zurückgesendete Verpackungen werden nicht angenommen.
- 6. BESTELLUNGEN** - a) alle Bestellsaufträge sind „vorbehaltlich der Genehmigung des Verkäufers“ zu verstehen; b) die Mengen müssen den für jede Verpackung angegebenen Mengen entsprechen; c) bei jeder Bestellung müssen die Beschreibung und der Code des Produkts angegeben werden. Die Bestellungen, die über Agenten, Vertreter oder Beauftragte der Fa. IPC TOOLS S.p.A. eingehen, unterliegen stets dem freien Ermessen der Fa. IPC TOOLS S.p.A.. Demzufolge können obige Bestellungen nur nach schriftlicher Auftragsbestätigung der Fa. IPC TOOLS S.p.A. als verbindlich angesehen werden.
- 7. VERSAND** - Die Ware wird unabhängig von den vereinbarten Lieferbedingungen stets auf Risiko und Gefahr des Käufers transportiert.
- 8. LIEFERFRIST** - Die bei Vertragsabschluss vereinbarte Lieferfrist gilt als Frist für die Spedition der Ware ab Werk. Das Speditionsdatum versteht sich als ungefähr und für den Verkäufer unverbindlich, insbesondere für Verzögerungen wegen höherer Gewalt.
- 9. NICHTABHOLUNG** - Die Nichtabholung der Ware führt nach Ablauf von dreißig Tagen der vereinbarten Lieferfrist zur Auflösung ipso iure des Verkaufsvertrags und der Verkäufer hat das Recht, vorbehaltlich größeren Schadens als Konventionalstrafe die bis zu diesem Moment erhaltenen Summen einzubehalten.
- 10. REKLAMATIONEN UND BEANSTANDUNGEN** - Der Käufer ist verpflichtet, unverzüglich nach Erhalt die Ware zu kontrollieren. Nach Ablauf von 8 (acht) Tagen nach Ankunft beim Empfänger versteht sich die Ware als vollständig angenommen. Eventuelle Reklamationen in Bezug auf die Qualität der Ware müssen bei sonstiger Folge der Verwirkung schriftlich per Einschreiben mit Rückschein, per Fax oder per Email der Fa. IPC TOOLS S.p.A. innerhalb von 8 (acht) Tagen nach Erhalt der Ware zugesendet werden. Bei Funktionsmängeln, die nur beim Gebrauch des Produkts festzustellen sind, beläuft sich die Frist zur Zusendung der schriftlichen Reklamation auf 30 (dreißig) Tage ab dem Datum des Warenempfangs (maßgebend in diesem Fall ist das vom Spediteur ausgestellte Frachtdokument). Falls die Reklamation als gerechtfertigt angesehen wird, ist die Fa. IPC TOOLS S.p.A. allein zum Ersatz der Ware frei ab Werk verpflichtet, während jede andere Entschädigungsform ausgeschlossen ist. Reklamationen für eventuelle Verzögerungen oder Schäden, die auf den Transport zurückzuführen sind, müssen bei der Warenlieferung an den Frachtführer gerichtet werden, wobei ein schriftlicher Vorbehalt auf dem Frachtdokument zu erheben ist, von dem anschließend unverzüglich eine Kopie an die Fa. IPC TOOLS S.p.A. zu senden ist.
- 11. WARENRÜCKSENDUNG** - Rücksendungen werden nur angenommen, wenn sie zuvor von der Fa. IPC TOOLS S.p.A. schriftlich genehmigt und dieser frachtfrei und auf Risiko des Käufers zugesendet wurden. Die Spediteure und Frachtführer der Fa. IPC TOOLS S.p.A. sind weder zur Warenrücknahme noch zur Anerkennung von Reklamationen autorisiert.
- 12. ZAHLUNGSBEDINGUNGEN** - Es sind nur Zahlungen gültig, die direkt an die Fa. IPC TOOLS S.p.A. geleistet werden. Die Gültigkeit von Zahlungen per Tratte, Wechsel oder Scheck versteht sich stets „unter üblichen Vorbehalt“. Im Fall von Zahlungsverzögerungen hinsichtlich der vereinbarten Fristen erhebt die Fa. IPC TOOLS S.p.A. Verzugszinsen in Höhe von 5 (fünf) Punkten über dem von der Banca d'Italia festgesetzten und im Moment der Erhebung der Zinsen gültigen offiziellen Ablösungszinssatz.
- 13. STREITFÄLLE** - Für alle Streitfälle ist der Gerichtshof von Padua zuständig.

SALES TERMS AND CONDITIONS

CONDICIONES GENERALES DE VENTA IPC TOOLS S.p.A.

1. GENERALIDAD Y VALIDEZ - Las condiciones generales indicadas a continuación se consideran válidas para cualquier venta. Las posibles condiciones especiales así como las que deroguen las condiciones generales deberán establecerse por escrito al momento del pedido o ser acordadas por medio de carta escrita. Nuestras ofertas solamente se consideran válidas para el plazo indicado en la oferta misma. El pedido solamente será aceptado si corresponde a lo ofrecido. IPC TOOLS S.p.A. se reserva en todo caso el derecho de rehusarlo. Todas las cláusulas aquí indicadas se consideran aceptadas por el cliente, debiendo considerar las mismas como parte esencial del pedido.
2. OBJETO DE LA VENTA - Los materiales tienen las características descritas en los catálogos y en las tarifas de precios vigentes al momento de la entrega. Sin embargo las descripciones y los dibujos tienen carácter informativo. IPC TOOLS S.p.A. se reserva el derecho de aportar, incluso sin preaviso, las posibles modificaciones técnicas que resultaren necesarias o útiles según su decisión irrevocable.
3. PRECIOS - Los precios indicados en la tarifa se consideran para entrega franco fábrica, salvo acuerdos derogatorios debidamente consignados por escrito. Los precios y las condiciones de venta indicados en la tarifa no son vinculantes, y IPC TOOLS S.p.A. se reserva el derecho de modificarlos, en cualquier momento y sin previo aviso. Se considera que todos los suministros efectuados implican la aceptación de los precios indicados en la tarifa oficial vigente en el momento de la entrega. Los precios, rebajas y condiciones de cada suministro no son vinculantes para los pedidos sucesivos.
4. IMPUESTOS Y TASAS - El impuesto sobre el valor añadido (IVA), que no está incluido nunca en los precios de catálogo, y todos los demás impuestos y tasas, aunque hayan sobrevenido durante la ejecución del contrato, están en su totalidad a cargo del Comprador. También están a cargo del Comprador: a) los timbres fiscales para la emisión de letras de cambio o pagarés bancarios; b) los gastos de registro y de inscripción del contrato; c) cualquier otro gasto relacionado con exigencias especiales del Comprador o con incumplimientos por parte de éste.
5. EMBALAJE - Salvo acuerdo diferente establecido por escrito, IPC TOOLS S.p.A. prepara el embalaje adecuado según sus propios estándares. En todo caso, no es responsable de cualquier tipo de daño, deterioro o pérdida debido a una protección defectuosa, insuficiente, hasta - e incluida - la llegada al destino. Los datos, los pesos y las medidas se expresan a título indicativo y no vinculante. No se aceptan embalajes de retorno.
6. PEDIDOS - a) todos los pedidos deben considerarse "salvo aprobación del vendedor", b) las cantidades deberán ser las indicadas para cada embalaje; c) cada pedido debe llevar la descripción y el código del producto. Los pedidos recibidos a través de agentes, representantes o encargados de IPC TOOLS S.p.A. están subordinados siempre a la decisión irrevocable de la propia empresa IPC TOOLS S.p.A. Por consiguiente, dichos pedidos solamente podrán considerarse vinculantes tras una confirmación de pedido escrita por parte de IPC TOOLS S.p.A..
7. ENVÍO - La mercancía viaja siempre por cuenta y riesgo del Comprador cualesquiera que sean las condiciones de entrega pactadas.
8. PLAZO DE ENTREGA - El plazo de entrega fijado a la conclusión del contrato se considera como plazo para el envío de la mercancía desde la fábrica. La fecha de envío se considera aproximada y no vinculante para el vendedor, en particular en caso de retrasos debidos a causas de fuerza mayor.
9. RECOGIDA NO EFECTUADA - De no ser recogida la mercancía, transcurridos treinta días a partir del plazo pactado para la entrega, se producirá la rescisión de pleno derecho del contrato de venta y el vendedor tendrá derecho a retener, a título de multa, las cantidades recibidas hasta ese momento, sin perjuicio de cualquier otro daño mayor.
10. RECLAMACIONES Y CONTESTACIONES - El Comprador está obligado a controlar la mercancía inmediatamente después de haberla recibido. Transcurridos 8 (ocho) días desde la llegada a las instalaciones del destinatario, la mercancía se considerará plenamente aceptada. Las posibles reclamaciones sobre la calidad de la mercancía, deben ser enviadas a IPC TOOLS S.p.A., so pena de pérdida de eficacia, por escrito, por carta certificada con acuse de recibo, fax o e-mail, dentro de un plazo de 8 (ocho) días a partir de la fecha de recepción de la mercancía misma. En caso de que se trate de defectos del funcionamiento, comprobables solamente al utilizar el producto, los plazos para tramitar la reclamación escrita son de 30 (treinta) días a partir de la fecha de recepción de la mercancía (da fe el documento de transporte expedido por el transportista). Si la reclamación se considerare válida, IPC TOOLS S.p.A. solamente tendrá la obligación de reemplazar la mercancía franco de porte, quedando excluida cualquier otra forma de indemnización. Las reclamaciones por posibles retrasos o daños imputables al transporte, deben ser dirigidas al transportista, en el momento de la entrega de la mercancía, formulando una reserva escrita en el documento de transporte mismo que deberá ser transmitido después urgentemente, en copia, a IPC TOOLS S.p.A..
11. DEVOLUCIÓN DE LA MERCANCÍA - No se aceptan devoluciones que no hayan sido previamente autorizadas por escrito por IPC TOOLS S.p.A. y si no se hacen llegar a esta última, con entrega franco de porte y a riesgo del comprador. Los transportistas de IPC TOOLS S.p.A. no están autorizados a retirar la mercancía, ni tampoco a aceptar la reclamación.
12. CONDICIONES DE PAGO - Los pagos, para ser válidos, deben ser efectuados directamente a IPC TOOLS S.p.A.. La validez de los pagos por giro, letra de cambio o cheque se entiende siempre bajo la cláusula "salvo buen fin". En caso de retraso en el pago o en los plazos pactados, IPC TOOLS S.p.A. aplicará intereses de demora en la medida de 5 (cinco) puntos por encima del tipo oficial de descuento fijado por el Banco de Italia y vigente en el momento de aplicación de los intereses mismos.
13. CONTROVERSIAS - Para cualquier controversia es competente el tribunal de Padua.
